

Tarsco[®]
a TF Warren Company

**Full service provider for
storage tanks and terminals**

Tarsco was awarded as general contractor a turnkey contract to construct the largest ammonia tank in the world in Texas City, TX U.S.A.

This massive 70,000 metric ton, dome roof tank is 212' in diameter x 110' tall. The turnkey project includes the engineering, procurement, fabrication, construction, maintenance, blasting, coating, lining, piping, and out buildings.

Tarsco relies on the expert services of its sister companies who are all part of the TF Warren Group of companies.

Tarsco: **Engineering
Procurement
Construction**

Blastech Mobile: **Plate Fabrication**

Total Plate: **Plate Processing**

Blastco: **Field Coating**

Globaltherm: **Insulation**

As this is the largest ammonia tank in the world, Tarsco is focused on assuring the tank's integrity to prevent brittle fracture, stress corrosion cracking, etc.

Construction began in October of 2020 and is scheduled to complete in December of 2022.
